## ENGLISH AS AN ADDITIONAL LANGUAGE (EAL) POLICY

Hale Prep School welcomes children from a range of different cultural backgrounds. It recognises that linguistic and cultural diversity enrich the school and that a child's achievement will be enhanced by a welcoming environment where he or she feels valued and confident.

The school has a small number of children with English as an additional language and a proportion of the school who are bi-lingual and who speak other languages at home with family members. There is no reason to suppose that this situation will change in the foreseeable future for two reasons:

- 1. There is an extensive waiting list and children average 3–4 years on the waiting list before being offered a place.
- 2. Parents are invited to visit the school prior to registration. At this visit the academic standard of the school is discussed and it is self-evident that a child who is not fluent in English may struggle to access the curriculum.

### Definition of EAL

In the context of Hale Prep school, a child will be placed on the register of children with English as an Additional Language, if his or her development and understanding of English has been significantly influenced by the dominance of another language at home.

In some cases, children will be placed on the register when they arrive at the school and will be removed from the register as their English skills improve and they no longer require support.

## Statement of Aims for children with EAL

The school is committed to ensuring that:

- 1. All EAL children become confident and fluent in speaking and listening, reading and writing.
- 2. The individual needs of children are correctly identified and additional support is provided for any pupil who needs extra help with their communication and interaction skills.

- 3. Appropriate strategies are used so that all EAL children have full access to all areas of the curriculum.
- 4. Parents are kept informed of extra support provided and of their child's progress.

This is in line with the general ethos of the school embodied in all its policies and with the requirements of the Race Relations Act 2000 and the Equality Act 2010

### Procedure for welcoming EAL children to Hale Prep Initial steps

A new pupil with EAL will be assessed by a member of the school's specialist support staff. A Language Assessment Profile will be completed and a formal assessment will be undertaken using the school's language assessment pack. This consists of graduated tests in the four areas of:

- Listening and understanding
- Speaking
- Reading
- Writing

The pupil's proficiency in these areas will be recorded using The Bell Foundation's EAL Assessment Framework. This framework consists of 5 proficiency levels:

- A -New to English
- B Early Acquisition
- C Developing Competence
- D Competence
- E Fluent

In addition to these formal steps, all new children with EAL will be informally assessed by members of staff during their early weeks at Hale Prep. Staff share their views during weekly staff briefings and the SEN coordinator is responsible for recording these views and updating staff on developments.

### Teaching and Learning

Pupils at the early stage of language acquisition may be initially withdrawn for short language lessons. In these lessons understanding is developed by visual support (pictures, posters, visual dictionaries etc), ICT packages, writing support, emphasis on understanding key words and instructions and repetition. It would be hoped that the high staff: pupil ratio at Hale Prep will allow the school to provide such lessons at no additional expense to parents. However, dependent on the level of needs, the school may require parents to pay for this extra support.

At the beginning of each day there is a 20-minute slot for guided reading / individual study. This time may be allocated to assist EAL pupils learning the language. Pupils who are more advanced learners will be supported in the classroom whilst continuing to work on specific targets such as understanding and using different tenses. The support will last as long as it is needed to ensure that all pupils have full access to the curriculum.

### Assessment and Tracking Progress

The progress of pupils with EAL is carefully tracked and recorded using the Bell Foundation Assessment Framework. The class teacher will review progress made towards targets set and the effectiveness of individual support will be evaluated and adjusted accordingly. The SEN will ensure that progress is recorded, including exam results in Maths and English and comments on other subjects in the curriculum, and also ensure that parents are kept informed of developments.

#### <u>Resources</u>

The school welcomes and celebrates pupils from diverse backgrounds. The ability of children to converse in different languages is recognised as a great asset and is reinforced through displays and signs in different languages throughout the school. Resources used to develop proficiency include –

- Online resources (British Council, The Bell Foundation, Clicker6, Twinkl)
- Visual dictionaries
- Conversation cubes

The school is committed to reviewing the effectiveness of resources used to support pupils with EAL and extending its range of materials in line with developments.
